

I would urge you to consider the negative effect of your proposal to expand the LPFM service. Stations which I support such as K-LOVE and our local Christian station may be forced off the air if this change is enacted. K-LOVE and similar stations provide an important service to our community. Many here appreciate the positive messages, the freedom we have in America to listen to Christian music, and the choice not to listen to the secular media which is becoming increasingly offensive. K-LOVE reaches out to people in need, providing positive resources, prayer support, and encouragement for our community.

Sincerely, Amy Bartels
